

Advanced Search 3 Search Operators

Search Operator	TRAKit Context / Function
[NO FILTER]	Will return all results searched for.
IN	<p>Allows for multiple selection of items (Hold down SHIFT key to multi-select items) Ex: Allows user to search for specified items: (Ex: Only Building Res & Combo permits)</p> 
NOT IN	<p>Allows for multiple selection of items (Hold down SHIFT key to multi-select items) Ex: Allows user to EXCLUDE items from a search. (Ex: Search for all permit types EXCEPT for Combo permits)</p> 
IS	<p>Ex: Allows user to user to type in the search item MANUALLY in the textbox. Spelling is important, case sensitivity is not. This is for a (1) item search, you cannot search for multiple items using the IS operator.</p> 
IS NOT	<p>Ex: Allows user to EXCLUDE an item from search. Similar to NOT IN operator, however the IS NOT operator allows for a single item exclusion vs. a list of items to choose from in the NOT IN operator.</p> 
BEGINS WITH	<p>Allows the user to type in the beginning letters of what is being searched for. (Ex: In this example the search would bring back ELECTRICAL permit types based on what was typed search field: 'Ele').</p> 
ENDS WITH	<p>Allows the user to type in the ending letters of what is being searched for. (Ex: In this example the search would bring back BUILDING COM permit types based on what was typed search field: 'Com').</p> 
CONTAINS	<p>Allows the user to type in a partial name to bring back search results. (Ex: In this example the search result would bring back Plumbing permits. Similar to BEGINS WITH or ENDS WITH operators, however the search could contain text from <u>any part of the word</u>, not just the beginning or end).</p> 
IS NOTHING OR BLANK	<p>Allows the user to find records with missing or incomplete data. (Ex: In this search example the results would contain all permit numbers, permit types WITH NO ISSUED DATES.</p> 
IS NOT NOTHING NOR BLANK	<p>Allows the user to find records without missing or incomplete data. (Ex: In this search example the results would contain all permit numbers, permit types WITH ISSUED DATES and exclude records that had no Issued date.</p>
